* VicFlex Style AB1 bracket installation.
VicFlex Series AQB Fitting System—featuring the Series AH2 Hose and Style AB1 Bracket—is fully engineered and manufactured by Victaulic for consistent installation and performance.

See Victaulic Submittal Publication 10.85 for additional information.
The VicFlex system features easy-to-install brackets, hoses and fittings for a wide variety of sprinkler system applications, including:

- Commercial suspended ceilings
- Commercial metal or wood stud hard lid/drywall ceilings
- Block wall institutional spaces
- Clean room environments
- Industrial duct systems

Not all systems available in all regions. Contact Victaulic for details.

**Commercial Ceilings**

- For suspended or hard-lid ceilings
- 31–72”/787–1829 mm lengths available
- Series AQB featuring Style AB1 bracket and Series AH2 braided hose is cULus Listed and FM Approved
- FM Approved hat channel bracketry also available
- One bracket design for pendent, semi-recessed and concealed sprinkler installation

**Block Wall Institutional**

- For pendent or sidewall installation in block walls ranging from 3–12” in thickness
- 31–72”/787–1829 mm lengths available
- Series AQI braided system is FM Approved
- One-piece, patented, open gate installation-ready bracket
- Reducer nipples available in 5.5’/140 mm, 9.0’/229 mm and 13.0’/330 mm lengths
**Clean Rooms**

- For installations requiring the elimination of potential leaks and the preservation of room integrity
- 24–72"/610–1829 mm lengths available
- Series AQC braided system is FM Approved with leading industry clean room ceiling manufacturers
- Each system is made to order, contact Victaulic Customer Care for lead times and delivery information

**Industrial Duct Systems**

- For installations within round or square duct work to provide fire protection where combustible gasses may be present
- 24–72"/610–1829 mm lengths available
- Series AQD braided system is FM Approved for ducts made of fiberglass-reinforced plastic (FRP)—contact Victaulic for other applications
**Flexible Hoses**

Choose from braided or corrugated hose in lengths from 31–72'/787–1829 mm

Pre-assembled systems can be ordered to your specified need and ship to the jobsite in sturdy, convenient packaging. Orders ship within five working days.

Visit [www.victaulic.com/vicflexpreassembled](http://www.victaulic.com/vicflexpreassembled) for ordering information.

**Branch Line Fittings**

Convenient threaded fittings for fast branch line connection without having to replace or handle the entire hose assembly.

---

**Systems save up to 60% product preparation and installation time**

* VicFlex pre-assembled system installation.
Reducers

Choose from straight or 90° elbow reducers to complement any installation space or sprinkler.

FireLock Automatic Sprinklers

Sprinklers ranging from K4.9 to K11.2 for braided systems and K4.9 to K8.0 for corrugated systems. Choose from recessed, concealed, quick or standard response performance.

Sprinklers are pre-threaded and pressure tested at the factory to ensure leak-proof installation. Other threaded connections are hand-tight to speed installation. Systems ship with bulb protectors or paint caps as needed.

DURABLE PACKAGING

Tough, easy-to-access packaging for pre-assembled hose systems. Compact, convenient design. Brackets ship in separate, space-saving carton.
Visit www.victaulic.com/vicflex to learn more about the VicFlex system or to request a demo.
