

ABOUT US

Beginning in the 1920s, piping in the mining industry was one of the earliest applications for Victaulic couplings. Easy to assemble, disassemble, move, and reuse; flexible and leak-tight; and able to be fitted in a fraction of the time in tighter spaces with far less labor and equipment than conventional joints, Victaulic couplings quickly became the standard method of joining lines in both surface and underground mines. Today, Victaulic remains a major player in the mining industry, continuing to develop innovative solutions to serve the evolving challenges of modern mining.

BENEFITS

- ▶ PROVIDES SYSTEM DURABILITY
- ▶ IMPROVES SPEED OF INSTALLATION & EASE OF MAINTENANCE
- ▶ INCREASES JOBSITE SAFETY
- ▶ OFFERS LABOR SAVINGS

MINING

MARKET SEGMENTS

PRODUCTS ARE IN

6 OUT OF **10** OF THE
WORLD'S DEEPEST MINES

ACCOMMODATING

PRESSURES UP TO
4000 PSI/27579 KPA

KEY INNOVATIONS

- ▶ REFUSE-TO-FUSE™ FOR HDPE
- ▶ INSTALLATION-READY™ TECHNOLOGY
- ▶ KNIFE GATE VALVE
- ▶ DIVERTER VALVE
- ▶ ADVANCED GROOVE SYSTEM (AGS)
- ▶ VIC-PRESS™ FOR SCH. 10S STAINLESS STEEL
- ▶ HIGH-PRESSURE SOLUTIONS

APPLICATIONS

- ▶ COOLING
- ▶ COMPRESSED AIR
- ▶ WATER SUPPLY
- ▶ DEWATERING
- ▶ SLURRY
- ▶ TAILINGS
- ▶ BACKFILL
- ▶ DUST SUPPRESSION
- ▶ FIRE PROTECTION
- ▶ CHEMICAL SOLUTIONS

SOLUTIONS AND SERVICES

- ▶ ENGINEERING DESIGN SUPPORT
- ▶ CUSTOMER TRAINING
- ▶ CUSTOM ENGINEERED PRODUCTS
- ▶ APPLICATIONS ENGINEERING
- ▶ PROJECT MANAGEMENT SERVICES
- ▶ CONSTRUCTION PIPING SERVICES

NOTABLE PROJECTS INCLUDE

- ▶ Pueblo Viego Gold Mine
- ▶ Resolution Copper Mine
- ▶ Snap Lake Diamond Mine
- ▶ Cerro Verde Copper Mine
- ▶ Oyu Tolgoi Copper-Gold Mine
- ▶ Highland Valley Copper Mine
- ▶ Husab Uranium Mine
- ▶ Kid Creek Copper and Zinc Mine
- ▶ Mt. Isa Mines Jameson Cell Upgrade
- ▶ Nickel Rim South Nickel-Copper Mine
- ▶ Sino Iron Project
- ▶ Sieritta Copper Mine
- ▶ Sentinel Copper Mine
- ▶ Rosemont Gold Mine
- ▶ Ambatovy Nickel Mine
